The Department of Environmental Protection (DEP) and Office of General Services (OGS) in New Jersey have indicated that the firm's "green" initiatives include the use of energy-efficient lighting, water-saving devices, and the use of recycled materials in the construction of the new building. Cats domesticated themselves, says study

By [illegible] and [illegible] | 10/10/2017 | 10:00 AM

Cats have domesticated themselves, according to a new study. The researchers found that cats have been living with humans for at least 9,000 years, and that they have been able to adapt to living with humans without the need for human intervention. The study was published in the journal *Scientific Data*.

US Senate kills immigration reform bill

WASHINGTON, Feb. 10 (AP) — The US Senate has rejected a bill to overhaul the nation's immigration system, a move that critics say will leave the country's borders open to illegal immigrants.

The Senate vote was 54-46, with 10 Democrats and 44 Republicans joining to kill the bill. The House of Representatives has already passed the bill, but the Senate's rejection means it will not become law.

The bill, known as the Comprehensive Immigration Reform Act of 2007, would have created a pathway to citizenship for undocumented immigrants who have lived in the US for at least five years.

It would also have increased the number of visas available to high-skilled immigrants and created a new category of visas for temporary workers. Critics argue that the bill would do little to address the root causes of illegal immigration.

Defeat worries employers who rely on immigrants

Employers who rely on immigrants for their workforce are worried that the Senate's rejection of the immigration reform bill will make it harder to attract and retain workers. Many of these employers are in industries such as agriculture, construction, and manufacturing.

DANIEL RADCLIFFE:

'If Harry dies heroically, it'll be a good way for him to go'

ONLY IN HARRYWOOD
RADCLIFFE

When it comes to Harry Potter, Daniel Radcliffe is a natural. The 11-year-old actor has been playing the role since he was 11, and he's already become a household name. In this interview, Radcliffe talks about his life off-camera, his favorite movies, and his plans for the future.

What did you think of the role?

It was a really big role, and I was really nervous at first. But once I started, I realized that it was just a job, and I had to do it. I was really happy to be part of the team, and I was really proud of what we did.
